Work Experience

NAVSEA, Data Analyst

December 2023 – Present

Provide technical expertise in automation and data analysis to ensure the successful integration and configuration of Integrated Combat Systems (ICS) across a variety of naval platforms. Analyze ship change documents (SCDs) for compatibility and develop tools to streamline Configuration Management (CM) workflows. Conduct data-driven assessments and provide recommendations to program executive offices (PEOs) on capability implementations for AWS, SSDS, ICS, and AtWS programs.

NEXCOM, Sales Technician

June 2021 – November 2023

Responsibilities include data entry, utilizing various systems for inventory management and optimization, tracking records, conducting competitor analysis, and processing transactions.

Mathnasium, Instructor

May 2019 – June 2020

Tutor and teach fundamental math skills from grades K-12. Responsibilities include checking assignments to ensure they are correct, teaching new techniques to solve problems, talking to parents about how their children performed during their session, and keeping records of progress for each individual student.
